DRAWING AND ART PROCESS

Prints only, No originals. Will not be framed.

My work is very detailed it takes me anywhere from 2-4 weeks (or more) depending on how many subjects are in your the photo and detail/complexity. I draw and shade in pencil, then I edit and add color digitally to finalize the artwork.

In order to keep the integrity of the pencil drawing, the color is kept minimal and added to certain details such as the eyes, lips, accessories, etc. The color and special elements such as the gold paint and bokeh (starry effect) are added and edited digitally.

All prints (except the 36" x 48" inch size) are printed on museum-quality posters that are made on thick, durable, acid free matte paper. The prints are archival, which will last the test of time.

The 36" x 48" inch size is a special order and is printed on Hahnemühle's authentic art paper which is regarded as top of the line. It is often used for exhibitions and limited-edition art prints.

My drawings are perfect for gifts and special occasions!
